

Dominican Republic

STRUCTURE OF HIGHER EDUCATION SYSTEM

Description:

Higher education is provided by public and private universities and other higher education institutions. All institutions must be authorized by the SEESCYT, which replaced the Consejo Nacional de Educación Superior (CONES) in 2001. The SEESCYT supervises the enforcement of regulations in the field of higher education and provides technical assistance to higher education institutions and advisory services to the executive power.

Stages of studies:

University level first stage: Licenciatura

Courses usually last four years and lead to the Licenciatura. Courses in fields such as Engineering and Architecture take five to six years and lead to a professional title.

University level second stage: Especialista, Maestría, Doctor

Studies last between one and three years following the Licenciatura and lead to the title and/or degree of Especialista or Maestría. The only Doctorados conferred are professional qualifications in Law, Medicine, Veterinary Medicine and Dentistry. Studies last for approximately six years and lead to the title of Doctor.

ADMISSION TO HIGHER EDUCATION

Admission to university-level studies:

Name of secondary school credential required: Bachillerato

For entry to: Universidad, Instituto Técnico de Estudios Superiores, Instituto Especializado de Estudios Superiores

Foreign students admission:

Quotas: 33%

Entrance exam requirements: Students must hold the Bachillerato, pass an Examen de Admisión, and hold a copy of their academic record, together with a certification by their home university.

Entry regulations: Foreign students must possess a student visa or a residence permit, depending on their nationality. A good command of Spanish is necessary.

Health requirements: Foreign students must hold a health certificate

Language requirements: Students must have a good command of Spanish.

RECOGNITION OF STUDIES

Quality assurance system:

The SEESCYT authorizes the opening of higher education institutions and the ADAAC is responsible for the evaluation and accreditation, on a voluntary basis, of programmes and institutions.

NATIONAL BODIES

Secretaría de Estado de Educación superior, Ciencia y Tecnología - SEESCyT (Secretariat of State for Higher Education, Science and Technology)

Secretary of State: Ligia Amada Melo de Cardona
