The ASAIHL Online World Congress 2020 on “COVID-19: the Global New Reality” (AOWC-2020)

Rationale :

The Association of Southeast Asian Institution of Higher Learning (ASAIHL) has 234 member institutions located in 28 countries which are actively operated on and contributed to the development of their respective countries. Thailand as one of the member countries consists of 43 member institutions from both public and private sector.

Beginning from the late 2019 until the present, every country is facing one of the most devastated situation, the pandemic of the Coronavirus Disease or the COVID-19. Even though the global community had been mentioning on the technological disruption previously, the COVID-19 has changed people's mindset regarding the issue completely. In other words, the COVID-19 has become the global disruptor, and it needs to be well taken care of. Thus, the need for more collaboration from all stakeholders is required, the proactive counter measures of future pandemic of diseases to save humankind in all aspects is of paramount importance, and the call for more advancing scientific and social innovations in order to support the people's living has been voiced.

The ASAIHL Online World Congress 2020 on “COVID-19: the Global New Reality” (AOWC-2020) is organized by the committee comprised from the member institutions in Thailand. The organizing committee cordially invites stakeholders and experts from all sectors including medicine, health science, communication, education, and business to participate in this online event in order to provide perspectives that could be used as guidelines towards the future, and to tackle with the COVID-19. The committee is also looking forward to welcome all the audiences who are well aware of the new reality, the new normal, and the new world.

Goals:

1. To raise the awareness, the readiness, and the togetherness among humankind.
2. To exchange knowledge, thoughts and academic experiences regarding the establishment of the proactive counter measures in all aspects for the future.
3. To encourage higher education institutions to take a leading role in steering society through the tide of the new normal in the Post-COVID-19 era.
4. To suggest choices of policies regarding all aspects of the society for consideration on rapid changes and future development.
