

Show-case the work of your institution at the
IAU 2019 International Conference

About the Conference

Hosted by **The Benemérita Universidad Autónoma de Puebla (BUAP)**, the IAU 2019 International Conference will focus on *'Transforming Higher Education for the Future'*.

At the time of rapid technological, social, economic and political changes worldwide, IAU believes that it is important to rethink the future of higher education and find viable ways of moving forward for all. Higher education has a critical role to play in proposing solutions and highlighting the ethical dimensions and responsibilities implied by these transformations of our increasingly complex societies.

IAU invite Members, partners and the wider higher education community to come together and exchange ideas, reflect on the most pressing questions, reconnect and form new partnerships.

Is your institution is carrying out exciting work to enhance learning, teaching or research and transform for the future? Consider presenting a poster during the conference, to share your experience with 300+ participants from around the world.
